

## Lute handmade pickup

**Product Code:** MGL01  
**Availability:** 1

**Price:** 235.60€

**Ex Tax:** 190.00€

### Description

Custom made in our workshop magnetic pickup specially designed for Lute.

This magnetic pickup is hidden behind the lute's rosette so that the rosette itself remains intact. Lute magnets installation used to remove or cut the rosette to be installed causing a damage to the instruments aesthetic.

The bar magnets are high quality (AlNiCo) promising great life time and sound performance.

This pickup is small sized and distinctive following our decorative aesthetics.

This is one of our latest inventions.
